

CAPABILITY STATEMENT

ZuriTech Global

Powering Africa's Enterprise Future Through AI, Cloud & Intelligent Infrastructure.

Who We Are

ZuriTech Global is an enterprise technology group serving governments, banks, telecoms, energy majors and industrial enterprises across Africa, Europe and the Middle East. We design, build and operate the systems that run critical national and commercial operations.

Core Practices

AI Solutions	Enterprise AI platform, document intelligence, agentic automation, AI Token Platform.
Cloud Services	Sovereign, hybrid and multi-cloud architecture for regulated enterprises.
Data Centres & Infrastructure	Tier III aligned design, colocation strategy, intelligent edge.
Cybersecurity	Zero-trust, SOC services, incident response, ISO 27001 / NDPR readiness.
Managed Services	24/7 operations, SRE, observability, platform engineering with enterprise SLAs.
Digital Transformation	Strategy, operating-model redesign, modernisation programmes.
Data & Analytics	Modern data platforms, governance, lakehouses, decision intelligence.
Enterprise Consulting	Board-level advisory, technology strategy, M&A diligence, programme delivery.

Differentiators

- Sovereign-ready delivery across regulated African markets.
- Multi-disciplinary teams: strategy, engineering, security, operations under one roof.
- ISO 27001 aligned, ITIL-driven, PMP-led delivery discipline.
- Cloud-native and Zero Trust by default.
- Bilingual (EN / FR) document intelligence and operations.
- 24/7 follow-the-sun support across four continents.
